COMMERCIAL INTELLIGENCE

TUESDAY EVENING, MARCH 10.

AFTER the disturbing character of the political intelligence received yesterday afternoon, it is somewhat surprising to learn through Reuter to-day that Consols in London have advanced from 97⅞ to 98⅛, and French Rentes in Paris from 109¾ to 110. This may be owing to the better diplomatic terms now reported to have been established between the English and German Governments; at the same time, it leads to the belief that in regard to the complications with Russia, no news is good news. In Indian securities Reuter reports no change, and the London General Produce markets remain unaltered.

The Liverpool Cotton market yesterday closed firm, the sales being estimated at 7,000 bales, including 1,200 Surats. Spot prices and arrivals are alike unaltered, but in New York yesterday futures were 6 points lower, owing, no doubt, to the comparatively heavy receipts of the two days, the following being the comparison with the two previous years:—

	1885.	1884.	1883.
Two days' receipts....	12,000	8,000	19,000
Three do.	18,000	16,000	33,000
Total since 1st Sept.	4,457,000	4,390,000	5,054,000

The Cotton market here remains very inactive. Prices are well maintained by sellers, who as yet have no pressure of stocks to enforce business, whilst buyers on the other hand get nothing from home which enables them to operate. Purchases of ready Cotton to the extent of about 1,000 bales are reported, mostly Bengals and Jalgaum, and further purchases of Broach for this month's delivery have been made by natives at Rs. 230 per candy.

WHEAT, although steady, is very quiet, the upward tendency apparent in freights tending rather to check any disposition towards fresh business. The following extracts from home papers received by the mail show the state of the trade at the time, and explain the dulness apparent for some time past:—

Many a May has, in this climate, had less genial weather than the first fortnight of February has given us this season. The markets cannot, without special warrant, resist the present temperature, which is promising an early supply of vegetables, but at present there is only a promise, and March winds and a drought spring may come between promise and fulfilment, yet the genial period has a direct influence on demand. There is no heart in bargains just now, and buyers and sellers alike are unsettled. Then the bulk of wheat on passage or under contract for shipment is augmenting weekly, from Californian exports, so that it now exceeds by more than half a million quarters the quantity on passage a year ago.

The French Ministry of Agriculture have just issued a series of estimates of the present position of the autumn sown wheat. These papers declare that the area is no less than 6,500,000 acres, and that as a consequence the present aspect of the fields cannot be described as satisfactory. But in the west, centre, north, and east the sowing season was very favourable, and the young wheat has come up with an unusually strong and healthy appearence. The proportions for the whole of France are reckoned to be 80 per cent. looking very well, and 20 per cent. of mediocre appearance.

In California during the months of December and January there was considerable rainfall, so that the prospects of growing wheat crop are considered to be very good. The large exports which have taking place during the past fortnight are principally due to the favorable promise for this 1885 yield.

SEEDS exhibit no quotable alteration. As in everything else, dulness is the leading feature.

FREIGHTS are quiet and unchanged except for March loading, which is rather firmer owing to a scarcity of ready tonnage. A steamer is reported to have been fixed to-day for March-April loading at 26-3d. open charter, with the option of two Mediterranean ports at 31s. 3d. at 2s. exchange. Otherwise rates are as last quoted.

COALS are dull at Rs. 15 for both Cardiff and Davison's.

PIECE-GOODS show no appreciable movement. Business is all on a hand to mouth basis, and prices barely maintained.

EXCHANGE has undergone no alteration to-day in any respect. The amount of bills offering is as limited as ever, and while that is so rates are not likely to move much, Bombay being the leading market for the time being. We quote:—

Bank Bills on demand	1s. 6 29-32d.	per rupee.
Do Telegraphic ...	1s. 6 13-16d.	"
Do three months' sight..	1s. 7 1-16d.	"
Credits, " " ...	1s. 7 3-16d.	"
Private "	2 03	"

GOVERNMENT PAPER.—The fact of Consols in London having improved yesterday has been sufficient to prevent rates giving way any further, but the market nevertheless is not by any means confident, and is ready to move either way, as the political advices may suggest. Fours we still quote at Rs. 95½, Fours-and-a-half at Rs. 99 nominal.

SHARES generally are weak. Bank of Bombay are down to Rs. 740. Press Companies tend lower, Mofussils having receded to Rs. 360, Berars to Rs. 550, and Prince of Wales to Rs. 565 Spinning Mills are irregular, Jewraz Balioo and Western India are Rs. 10, Bombay is Rs. 5 better, but a declineof Rs. 10 is quoted in Empress, Manockjee Petit and Great Eastern, Rs. 25 in Muhalakshmi, and Rs. 30 in Khandalah. A movement is on foot to adopt short time by stopping the mills two days a week, and, as will be seen from our advertisement columns, a meeting of the Millowners' Association has been called with the subject. In the present congested state of the market it would harm such a step could not but have a beneficial effect on the position of the industry, and shareholders might help to push on the movement by calling general meetings of the respective companies and empowering their directors to take immediate action. Bombay-Burmah Trading Co. shares are Rs. 100 lower at Rs. 3,800; Cooper, Madon, & Co., Ld., have receded to Rs. 118, and Treacher & Co., Ld., to Rs. 1,140. We hear it reported that several new shop companies are shortly to be brought out.

The Bombay Gazette

WEDNESDAY, MARCH 11, 1885.

THE statement that the Porte has offered to enter into an offensive and defensive alliance with England against Russia is not a little remarkable under present circumstances. Sir Henry Layard has compressed into a paragraph a sufficient number of reasons to raise a doubt as to the reality of such an offer, unless there be more behind Russian aggression in Afghanistan than has as yet been seen on the surface. The ex-British Ambassador at the Porte denounces the Gladstone Government for having abandoned and reversed the later policy of England with respect to the Ottoman Empire. He puts together the list of what he terms blunders after blunders by which they followed up speeches and writings in which they fomented a fanatical hatred against the Sultan and the Turkish people. They began by publishing a secret despatch which Sir Henry had intended for the eyes of the Cabinet alone, the effect being to destroy confidence between the Sultan and the Queen's representative. They next organised a hostile naval demonstration against Turkey, and threatened to blockade Smyrna, and joined France in pass

LORD RANDOLPH CHURCHILL AT HYDERABAD.

(FROM OUR OWN CORRESPONDENT.)

HYDERABAD, MARCH 10.

The Nawab Salar Jung and suite, with Lord Randolph Churchill, left Bombay on Sunday, and arrived here yesterday evening. The Minister and his guest were received on the station platform by the chief nobleman and leading officials, Mr. Cordery and staff being also present.

Lord Randolph is staying at the Residency. To-morrow he will leave with the Minister on a shooting excursion a few miles away, where I hear a few tigers have been marked down.

THE *EMEUTE* IN THE HYDERABAD JAIL.

A Commission consisting of Afsur Jung, A.D.C. to the Nizam, Mr. Sabapathy Iyer, Advocate-General, and Mr. Novel Woods, Municipal Commissioner, has been appointed to inquire into the late *émeute* in the jail. Public indignation seems to have been aroused at the indiscriminate massacre that took place. The troops who fired into the prisoners are said to have been out of hand. As the matter is *sub judice* comment at present would not be fair. Evidence is being taken, and it is expected that the inquiry will finish in about a week's time.

I learn that the superintendent of the jail states that he gave the military written orders to fire only if they were attacked, but that the former fired on the prisoners without orders, and disregarded the "cease fire" orders sounded by the bugle. There rose in all about six hundred prisoners, including 130 for life.

H. E. THE GOVERNOR yesterday laid the memorial stone of the Wilson Memorial College at Chowpatty, which is to be erected at a cost of about one lakh and a half of rupees. There was a large gathering at the ceremony, the present students of the Free Church College also attending. Rev. D. Mackichan opened the proceedings with a statement respecting the present institution and the steps taken to provide the new building. Sir James Fergusson then laid the foundation stone, and afterwards received an address from the past and present students, in which they thanked the Government for munificently supplementing the private contributions of the friends of the college. His Excellency in his speech remarked that it would indeed be strange if the foundation of a worthier building for the Free Church College associated with the name of Dr. Wilson was not judged a remarkable occurrence in Bombay. In this ceremony they honoured themselves as well as a precious memory, and he rejoiced that he had been privileged to offer his humble tribute to a great man whose name would long be treasured in this community as well as in his native country. To Dr. Wilson in very great measure was owing the institution of the catholic liberal system of Government grants to education which had now been established by a sort of royal charter in India. At the close a vote of thanks was accorded Sir James on the motion of Mr. Justice Birdwood.

IN the suit against Sir Munguldas Nathoobhoy, Mr. Justice Scott is still occupied in hearing the rebutting evidence given on behalf of the plaintiff. The witnesses say that according to the custom of the Gujerati Banya caste a son can enforce a partition of the property in his father's lifetime, and a father too is entitled to divide it, whenever he chooses. Generally speaking the witnesses make no distinction between ancestral and self-acquired property for the purposes of such a division. They give instances of fathers having been compelled or persuaded to divide the property in their lifetime with their sons; and they affirm that quarrels between the females of a household are the chief cause of disagreements between father andson, and of their ultimate separation. Evidence of this nature was given yesterday and, therefore the details need not be repeated.

COLONEL HENDERSON, C.S.I., has been recalled to Calcutta from Bombay when *en route* to Hyderabad—presumably for service in connection with the Ameer's visit to India.

THE Pioneer Regiments remain at Quetta, and the Oxford Light Infantry, now quartered in the Madras Presidency, is under orders to proceed there at once. "This strengthening of the Quetta garrison," says an up-country paper, "is a step in the right direction, in view of the threatening aspect of affairs in the North, for we should be glad to see a complete brigade sent there, with a battery and a regiment of cavalry fully equipped for field service, and this will certainly be done in certain by no means impossible contingencies."

WITH reference to a statement telegraphed from London that an application of a startling character had been received from the Ameer, emphasising his confidence in the British Government, the Allahabad paper says:—"From the point of view of the Government of India, at any rate, nothing either startling or unexpected has happened, though the Ameer has lately shown most unmistakably his willingness to act in hearty accord with us in many ways, and particularly in one important direction, as to which it is unadvisable to be explicit for the present. To people at home not altogether familiar with the question, the announcement in question would no doubt be considered startling, and this will sufficiently account for the language of the English press. The Government of India have for some time been prepared to adopt a vigorous policy. The reinforcement of Quetta, and the assembly of a large force at Pindi, primarily in honour of the Ameer, but equipped on a scale to enable them to take the field, if necessary, at a moment's notice, are sufficient evidence of this. Of late, too, our negotiations with the Ameer have assumed a more thorough-going complexion than heretofore. These are already bearing good fruit, and opening up a vista of great possibilities in the future, although timorous spirits, unacquainted with the recent drift of affairs, might be startled by the important results thus obtained. Lord Dufferin's tenure of power will be no barren one."

THE *Times* of February 11 published a telegram from St. Petersburg, asserting that Colonel Alikhanoff, the Russian chief of the Merv District, had been invited by the Afghans to Panjdeh, and that he had refused to go to that city. An up-country paper, which professes to have special information on the subject, tells a very different story. Colonel Alikhanoff, after insolently demanding admittance, was peremptorily ordered to go away and mind his own business. "No doubt," says the up-country paper, "the gallant colonel is of opinion that the apparent roughness of the Afghan commander's retort was merely graceful dissimulation on the part of his would-be host, and that true Oriental politeness, as well as the laws of hospitality, necessitated the shutting of the gates of Panjdeh in his face by way of welcome. 'Perhaps it was right,' he might sing with the poet, 'to dissemble your love, but—why did you kick me down stairs?'"

THE Lahore paper says that arrangements are in rapid progress for the camp at Rawal Pindi. The Ameer's camp is to be laid out on the wooded space lying just across the Leh stream between the station and the city. The position has been well selected, as the Ameer's followers will be able to move about without let or hindrance, and are not likely to clash with the cantonment officials. The bulk of the cavalry are to be encamped on the wide space of ground just beyond the jail, on the road to Khana and across the stream. Water is always a difficulty at Pindi, but with the large body of cavalry between two streams, those of the Leh and the Khana, no inconvenience in this respect is likely to be felt. The infantry will, it is believed, be encamped closer in the cantonment; and probably on the open space of ground beyond the artillery barracks. The parade ground will thus be left free for the massing of the troops and for reviews, &c. The camps will be in contiguity to each other, and within hail of cantonments; so no difficulty will be experienced by the authorities in transmitting orders, &c. All the open country in the neighbourhood of the cavalry camps will serve admirably for field manœuvres. The selection of the race course for the Viceroy's camp nips in the bud all anticipations of holding a large race meeting at Pindi on the occasion, unless, indeed, a flat course can be planned out rapidly at Khana, where the steeplechases take place.

IT is said that H. R. H. the Duke of Connaught will have the command at Devonport. This, like that at Portsmouth, can only be held by officers of good private means, as the duties of entertainment are very onerous and constant. Prince Edward of Saxe-Weimar will probably be commander of the forces in Ireland.

THE *World* says:—"The Marquis of Ripon will be among the first visitors to the Queen after her return to Windsor; and the *Gazette* will probably announce at no very distant day the creation of a new dukedom. A step in the Peerage has been given of late years to every Viceroy on his retirement."

ACCOUNTS have reached the *Pioneer* that the emissaries of the Mahdi are busy in various large towns in the Upper Provinces. There are, it says, at this moment two such emissaries, Arabs, accompanied by two maulvis from Delhi, in a town not a hundred miles from Lahore. It is sufficient to add that they are working under the eyes of the police, who are perhaps acting under judicious instructions in not making too much of the men.

AN outbreak occurred in the prison at Khokand, in Russian Turkestan, on the 14th January. Some 24 convicts attacked the guard. The officer of the guard and 9 soldiers were killed, and 10 convicts were killed and 11 wounded.

SIRDAR AYOUB KHAN has gone back to Teheran, where he is said to be living with some 800 kinsmen and followers. He spent the summer and spring of last year in Kuchen; and his project of going to Russian territory or to Bokhara has apparently been abandoned.

MESSRS. PLACE, SIDDONS, AND CO., share brokers of Calcutta, have taken considerable trouble in collecting information as to the dividends paid during the last three years by the various public companies in India, which they publish as a supplement to their Money Market Report. Their statement shows details of the various companies, and from these details they have calculated that the average dividends of our industries are:—Coal Mining Companies, 13·20 per cent.; Jute Spinning Companies, 12·73; Pressing Companies, 12·38; Banks, 851; Cotton Spinning Companies, 7·79; and Tea Companies, 4·50 per cent.

THE younger brothers of the Khedive seem at any rate determined to show themselves not altogether unworthy of the traditions of Mehemet Ali. The *World* says:—Prince Hassan (educated at Oxford) is going to the Soudan as Governor-General, with an unpleasant incertitude as to the exact position of his seat of government, and as to the cordiality of the reception which awaits him at the hands of the Soudanese. It is only fair to say that this appointment was recommended by Ismail Pasha in the interview published by the *Pall Mall Gazette* just after the defeat of Hicks Pasha, more than a twelvemonth ago. Prince Ibrahim Hilmy (educated at Woolwich) is about to give to the world an exhaustive history in English of Egyptian literature. Prince Ibrahim has devoted nearly three years to the compilation of this work, which will be profusely illustrated. In a few touching sentences he dedicates it to his father."

IT is said that Gordon sent home a long despatch explaining that he sent Stewart and his companions away because he despaired of relief. But as this despatch was full of expressions the reverse of complimentary to the powers that be, it was never published. Also, so far from only disjointed messages of a few words having latterly been received from Gordon, Lord Wolseley quite lately received a long communication of nearly a thousand words; but this also was not of a nature to make the authorities desire its publication.

MR. RUSKIN has addressed the following letter to the *Pall Mall Gazette*:—"Would you please tell an innocent outsider whom you are often kind to what on earth Mr. Punch means by talking about a "Jingo rally" and the like? or what folks in general mean by going about begging for help from everybody, because we have lost a few good men and officers in Africa, and, after dawdling for six months, been too late to save one very perfectly good officer, whom, as far as I can make it out, Ministers must have wanted to get rid of? As far as I have any opinion on the matter myself, I entirely agree with the enclosed of M. de Lesseps, which I found quoted in a country paper. Bah! last rally! Good gracious! did all our colonies come offering to help us after the retreat to Corunna?" The following is the extract mentioned:—

M. de Lesseps, in the course of an interview related by the Paris *Matin*, said:—"I have repeatedly warned the English that to send an expedition to the Soudan was to send soldiers to certain death. As for ancient Nubia, or Ethiopia, it is a country in which, as if in a sea, whole armies of conquerors have been engulfed. Cambyses left 100,000 men on the deserts, and he was only too glad to return home with a handful of followers. The son of Mehemet Ali Pasha burned in his camp, with his army. To attempt to conquer the Soudan by force is a dream. It is quite possible to give laws to and to govern these intelligent, heroically brave races. In order to reconquer Khartoum, wherever the route be taken, one must cross deserts in which there is absolutely no water. An army whether going or returning will always be an easy prey to the warlike population of Nubia. These can turn on the enemy as many as 100,000 fighting men, for whom death is only a secondary consideration, and who would be scoffed at by the women if they returned to their villages without having avenged the deaths of their companions. The longer the struggle is continued against the Soudan the more difficult will be the effecting of a settlement. Two years ago it would have been easy to negotiate; now it is difficult, the animosity of these fanatical soldiers having been roused."

THE *Pall Mall Gazette* expresses its sympathy with the object of the recent meeting at Professor Wordsworth's, when it was determined to send a weekly telegraphic summary of Indian news and opinions to some English paper. "The one-sided presentation of Indian politics to the English public, due to the fact that the only regular and conspicuous reports on the subject are those of a partisan who does not consider the nature of his position of informant to demand any restraint upon his partisanship, has for some time been a grave scandal to English journalism. It would have been better had the movement to remedy this evil come from our side; but it is an unmixed blessing wherever it comes from, and we wish it all imaginable success."

ONCE more the familiar contour of the Two-headed Nightingale, Miss—or Misses—Millie Christine, may be seen on the street hoardings in London. But it is some twelve years since this lady held her last London levée. She is now over thirty—let us be discreet for once—and has travelled far and wide, accumulating the substantial fortune of which she is now the possessor, for a freak of nature (of high rank) makes an income about as large as the Prime Minister's. The Siamese Twins married Miss Millie Christine prefers single blessedness in the principle, we presume, that two are company and three are none. Letter-writing absorbs much of her time, but she also finds leisure for the cultivation of music. There is also dressmaking to do, and reading is a favourite occupation. The Nightingale is now on her farewell tour. The new generation will be glad to be presented before she sinks into the commonplace oblivion of the everyday mortal.

IT is said that the Queen was very loth to give her consent to the employment of the Guards in the Soudan. Lord Hartington went down personally to Windsor to ask her approval, and had a difficult task to obtain it. People are not generally aware that Her Majesty allows no movements or changes to be made in the stations of the Guards without her express permission. On this point she has always been most tenacious. Whatever Ministers may choose to do with the rest of the Army, she reserves to herself the absolute control of her Household Brigade. This control extends to even the smallest details—the position of sentries and the number of men on guard. Another ancient institution which the Queen personally controls is Her Majesty's Tower. Most people have heard of the ceremony of handing over "Queen Victoria's keys," which takes place every night, but few are aware that at the time of the recent explosion all the reports were addressed to the Queen direct by the officials of the Tower.

MILITARY NEWS.

How strange, exclaims "Atlas" in the *World*, is the whirligig of military service, and the chances it brings! Twelve months ago Colonel Henry Brackenbury was eating out his heart at Gibraltar, doing garrison duty there, and positively forbidden to hope for further active employment. To-day he is in command of Wolseley's left column, and ably completed the victory of Kerbekan on the death of General Earle. The rights of the story by which Brackenbury lost his appointment as chief of the Dublin police, and with it the goodwill of his official superiors, may never be accurately known, but there will be few who do not rejoice heartily at the turn of luck that has reached him at last. It may be hoped that he will be left in command of Earle's force, as it was known till the other day, and that it will fall to his share to attack Berber. There is only Sir Evelyn Wood to supersede him, and probably Wolseley will hesitate to put any one over Brackenbury's head, particularly after he has done so well.

TELEGRAPHIC WEATHER REPORT.

CALCUTTA, March 9.—There has been a very general decrease of pressure, greatest over Rajputana, the Central Indian plateau, and south-east of the Punjab, the only exceptions being Assam, North Bengal, Burmah, and some places in the North Punjab, where the barometer has risen. The pressure is above the average, and the relative distribution about the normal of the month, being high over Assam on the one hand and the Punjab on the other, while a large area of low readings overlies the central parts of the country and extends southward over the Deccan. Over the Peninsula there is an indraught towards the low-pressure area. Elsewhere light variable winds prevail. The weather is cloudy over the Punjab, and rain has fallen at Peshawar and Quetta. Elsewhere it is fine and bright. Temperature has fallen except overthe North-west Provinces, the central parts of the country, southern parts of the Punjab, and the extreme south of the peninsula. The maximum over India yesterday was 105° at Sholapur.

The sale will commence at 4-30 p.m., and be resumed immediately after the annual meeting, which begins at 5-30 p.m. An interesting feature of the sale is the children's own contribution to it. Several kind friends also have placed their skill and labour at the service of this deserving charity.

AN UNPROVOKED ASSAULT.—Lawrence D'Costa, a Goanese, yesterday pleaded guilty before Mr. Cooper to a charge of assault preferred against him by a milkman. The complainant was driving a herd of buffaloes along the road in Dhobie Talao, and one of them happened to brush against the accused, who was passing the same way. Being a little the worse for liquor, without saying anything he went up to the milkman and struck him several blows with a stick on his shoulders. The blows, which would have fallen harmlessly on one of the animals, fractured the complainant's shoulder-blade. His worship fined him Rs. 10, and Rs. 7 of the fine was awarded to the milkman.

A SYSTEMATIC THIEF.—At the Fort Police Court yesterday, before Mr. Cooper, Ballia Nundoo, a well-known thief, pleaded guilty to three charges of criminal breach of trust in respect of nineteen copper vessels, the property of three persons, and also to a charge of stealing six caps belonging to one Anundee. The accused is a coppersmith by trade, but not doing a roaring business he had recourse to a very daring way of getting customers. He used to knock about among his neighbours and induce them by all sorts of promises to entrust to him their copper-pots and copper cooking utensils. These he invariably forgot to restore to their owners, and at last a report was made to the police, when it was found that he had pawned them all with a Marwaree. The caps the prisoner had stolen from a box in a room in a chawl, entering there in the middle of the day, when its occupant had left it for a few minutes. His worship committed him to stand his trial on the four charges at the next Sessions.

FRAUDULENT POSSESSION OF PROPERTY.—Nadershaw Muncherjee, a Parsee vagrant, was charged yesterday, before Mr. Dossabhoy Framjee, with having in his possession a gold albert chain, with two gold-mohurs and a gold ring attached, valued at Rs. 110, reasonably suspected of being stolen or fraudulently obtained. It appears that on the 5th instant a Mahomedan named Shaik Ismail Shaik Goolam Alli, a follower of the Indian Contingent for the Soudan Expedition, and who had since left Bombay for the front, was transhipped from one of the vessels, reported to the police authorities at Byculla that a man named Nadershaw, whom he met in a coffee-house at Cammateepoora, asked to look at the chain, and, when it was handed to him, on the pretext of going for a drink of water he left the room and absconded. The chain had since been traced by the police to one Hassan Alli Allibhoy, a dealer in brass having his place of business in the Chiboor-gully, with whom the prisoner had pledged it. The prisoner pleaded guilty, and was sentenced to three months' rigorous imprisonment, the property being retained in court pending the arrival of the owner in Bombay.

THE BOMBAY ICE-MANUFACTURING COMPANY.

THE ordinary general meeting of the shareholders of this company was held yesterday afternoon in the office of Messrs. C. H. B. Forbes and Co., under the presidency of Mr. Nanabhoy Byramjee Jeejeebhoy. The following report was submitted to the meeting for the half-year ended 31st December last:—

"The audited accounts of the company, for the half-year ended 30th June, 1884, were submitted to, and passed by, the shareholders at a general meeting held on the 30th August last, when a dividend at the rate of 5½ per cent. was declared. Under the provisions of the Indian Companies Act VI. of 1882, the company is not bound to submit its accounts more than once a year, and as it is inexpedient to issue a balance sheet until the negotiations now pending with the General Ice Factory Company, Limited, of London, and the holders of the vendors' certificates are completed, the Board have deemed it best to defer doing so until August next. The profits made during the half-year ended 30th December last will, however, in the opinion of the Board, safely admit of an ad-interim dividend of 5 per cent. being paid, making, with the dividend of 5½ per cent. declared in August last, a total of 10½ per cent. for the year 1884. The reconstruction of the factory at Mody Bay is now nearly complete, and improvements have been introduced which will tend considerably to reduce the cost of manufacture. Special regard has also been had towards guarding the property against the risk of fire. The special committee of shareholders appointed to consider the advisability of the company purchasing the 250 vendors' certificates issued by the company in pursuance of Clause 3, section (c), of the memorandum of association are still in negotiations with the General Ice Factory Company, Limited, but until a final settlement is arrived at the Board are not in a position to make any statement about the matter. The retiring directors are Mr. Nanabhoy B. Jeejeebhoy and Mr. Raghunath N. Khote, C.I.E., both of whom are eligible for re-election."

The chairman said.—Gentlemen, you will have observed from the report that we are not just at present in a position to give you very much general information regarding the affairs of the company, owing to the delicate and intricate nature of the negotiations at present being carried on with the General Ice Factory Company, Limited. I am, however, glad to be able to assure you that during the half-year ended 31st December last the company has earned a good profit. I had hoped that the reconstruction of the Mody Bay factory would have been finished before to-day, but owing to circumstances beyond our immediate control I fear it will not be ready to turn out ice until the end of this month. Your directors will then take into consideration the question of refixing the Company's high rate of ice, but as there are two sides to that question and many specious reasons to be urged for both sides, I do not intend to prophesy what decision will be come to. The new factory Building, as now is superior in many respects to the late one. In order to render it as safe as possible from the danger of fire, it will be lighted with incandescent electric lamps, and as the dynamo will be driven by the same power that drives the ice engines at night, little or no extra cost will be thrown on the company. Arrangements have also been made for the storage of large supplies of fresh water, and it is hoped that by these means the difficulties and dangers experienced in past years by scarcity of water, etc., will be rendered impossible. I am glad to say that the quantity of the ice made keeps up its excellent character. I beg to propose "That the directors' report for the half-year ended 31st December, 1884, be and the same is hereby approved, adopted, and confirmed."

The proposition having been seconded by Mr. A. W. Forde, was carried unanimously.

It was proposed by Mr. C. H. B. Forbes, and seconded by Mr. R. N. Khote, "That an *ad-interim* dividend on Mr. Nusserwanjee Sorabjee Jeejeebhoy and C[illegible] of the rate of 5 per cent. for the half-year ended 31st December, 1884, be and is hereby sanctioned and made payable on and after Monday, the 16th Instant, to those shareholders in whose names the shares now stand."

The motion was carried.

On the motion of Mr. Cumroodeen Tyebjee, seconded by Mr. Nusserwanjee Sorabjee Jeejeebhoy, Mr. Nanabhoy B. Jeejeebhoy and Mr. Raghunath N. Khote, C. I. E., who retired by rotation, were re-elected directors of the company.

It was proposed by Mr. N. R. Menina, and seconded by Mr. Trimbuk R. Telang, "That Mr. Nanabhoy B. Jeejeebhoy be re-elected chairman of the board of directors of the company for the ensuing year."

The proposition was carried unanimously.

The appointment made by the board, of Mr. Heugh S. Symons as auditor, in the place of Mr. Coorverjee Rustomjee Mody, deceased, was confirmed; and Messrs. Symons and Nusserwanjee Sorabjee Jamsetjee were appointed auditors for the ensuing year at a remuneration of Rs. 200 each.

Thanks were voted to the chairman, directors, and secretaries and agents of the company, for their able and satisfactory management of the business of the company during the past half-year.

The proceedings then terminated.

BOMBAY MUNICIPAL CORPORATION.

A MEETING of the Corporation was held on Monday at the Municipal Offices under the presidency of Mr. P. M. Mehta. There were present:—Dr. Thomas Blaney, Messrs. G. Cotton, C. Douglas, J. R. Duxbury, E. R. Freeborn, Grattan Geary, D. Gostling, D. S. Kemp, Captain H. Morland, Hon. Sir Jamsetjee Jejeebhoy, Bart., Messrs. Bhaishankar Nanabhoy, Byramjee Nusserwanjee Servai, Cowasjee Hormusjee, Dadabhai Nowrojee, Damodar Thakarsey Muljee, Gokuldas Jugmohundas, Hurkissondas Narrotumdas, Jamsetjee Pallonjee Kapadia, Karsandas Vallabdas, Cursetjee Nusserwanjee Servai, Muljee Bhawanidas Barbhaya Khan Bahadur Muncherjee Cowasjee Murzban, Messrs. Nowrozjee Furdoonjee, Raghunath Narayan Khote, Tribhowandas Vurjeewandas, Vandrawundas Purshotumdas, and Venayakrao Ramchunder Luxumonjee.

THE VEHAR WATER-WORKS DEBT.

The discussion was resumed on the resolution proposed in November last by Mr. Dadabhai Nowrojee with respect to the Vehar debt.

Dr. Blaney, in supporting the resolution, reminded the Corporation that seven years ago, when a resolution was passed on the subject, Mr. Pedder, the Municipal Commissioner, made a representation to Government, and up till the present moment that correspondence had been carried on. (Laughter.) Mr. Dadabhai had taken a great deal of trouble in the matter, and in his view, as well as in the opinion of the previous Town Council, and of the present qualified Municipal Commissioner, the Corporation were paying compound interest on the Vehar Debt, and that monthly, when, according to the correspondence of Government, the interest should have been reckoned as simple interest. Whether Mr. Dadabhai had correctly stated this mathematical problem or not, the largeness of the sum had doubtless lengthened the correspondence, but there ought to be finality even concerning a question affecting such an amount, and seven years was sufficiently long in all conscience to demonstrate the real liability of the Corporation. There was a point which struck Dr. Blaney as sufficiently significant to make it necessary for the Corporation to be acquainted with it. At the time of the completion of Colonel Crawford's first survey of Vehar, the revenues of the city were very small, and they were collected with great difficulty. When it was proposed that Bombay should be supplied by Vehar at a cost of 25 lakhs, it took away the breath of everyone, and the press were unanimous that it was a very large sum for the city, with its scanty revenue, to pay. The impression remained—certainly it was only traditional evidence—that the Government declared it would lend the money at 4 per cent., at the very lowest terms in fact, because of the impoverished condition of the Municipal finances at that day; and it was a pity the agreement was not made so definite that after twenty-five or twenty-six years they were called upon to set it right. This fact was very important, because when it eventually turned out that the cost of the water-works exceeded sixty instead of twenty-five lakhs, Government took half the excess upon itself, and left the remaining half to the city. It was certainly in his own mind as a public writer that the Government had lent the money at the lowest rate, and that the payment was to be cal

tricts on the Oxus previously named. These so-called "Hazaras" and "Eimauks" were for centuries subject to such sovereigns of the House of Timur as ruled at Herat, and such of their vassals as governed the provinces of Kandahar and Kabul. Subsequently, Herat came under the rule of the Safawis, while the Hazarah country, being dependent on Kabul and Kandahar, was for a long period subject to the Dihli sovereigns and the Persians before the Afghans acquired those territories.

The people loosely called "Hazaras" are descended from those military colonies I have before referred to, which generally consisted of 1,000 men, with their families, belonging to one tribe; hence they were called *ming*. Hazarah is merely the Tajzik or Persian interpretation of the word, signifying a thousand men. The others are people of four separate tribes, who are known by the name of Chhar I-mak, which is not a proper name, but is derived from Persian *chhar*, four, and Turkish *i-mak*, tribe—the people of the four tribes.

Among the Turkish people from the Oxus southwards, within the limits I have named, a number of them are styled by the general name of Uzbak, which is really not the name of a tribe, but of certain tribes of the Turkish race, the subjects of Uzbak Khan, a prince of the family of Juji, son of the Chingiz Khan, who ruled over Khitchak, and embraced the Muhammadan religion, along with his subjects, who from that time took his name—Uzbak's tribes. They subsequently subdued all Khwarazm and Mawara-un-Nahr, repeatedly overran Khurasan, and finally acquired the small States south of the Oxus to which I have referred, now known as Afghan Turkistan. The predominant Uzbak tribe therein located is that of Katghan, but there will also be found located there Kalats, Jala'irs, Byates, Khifchaks, Kankulis, Naemans, Besuds, Kungkurats, etc., which contain many smaller subdivisions. The whole of these, more or less, especially the so-called Hazarahs and Chhar I-mak, hate the Afghans and the Afghan yoke, and certainly the Afghan rulers, in recent times, have given them just causes of hatred. Some of these, again, the Hazarahs in particular, are Shi'ahs, and hate, with religious hatred, the Afghans and all other Sunis. These Turkish people, in consequence, are more open than any others to Russian deception and intrigue.

One of these Chhar I-mak are called Jamshedis; and an Indian newspaper the *Times of India*, in a recent article entitled "The Russian Advance," actually told its readers that the "*Hazara*" and "*Diemshidi*" were "*two tribes of Afghans*;" so we must not place entire faith even in what an Indian paper says.

COGNACS AND COGNACS.
WITH the continued importations of spirits under the name of WHISKY made from common raw grain, and the difficulty the consumer has in discriminating between the genuine and spurious article, the demand during the past few years that has existed for Whiskies is abating and good BRANDIES are again gradually asserting theirhformer position, so much so that in England at the moment it is more difficult to BUY GENUINE BRANDIES than it is to SELL them.
We quote for our own selected BRANDS as follows and invite comparison in qualitie and prices:—
